

A New Life for Aging Pipelines

“NO DIG” PIPELINE REHABILITATION SYSTEM

In urban and environmentally sensitive areas, Smart Pipe® delivers significant savings in costs for replacement or rehabilitation of the existing pipeline.

- High Pressure Applications from 150psi to 1,440psi.
- Portable Factory – The Smart Pipe® system is simultaneously manufactured and installed into your pipeline.
- Very Long Installation Lengths – up to ten miles in a single pull.
- 24/7 Monitoring – with the inclusion of the fiber optic monitoring system.

Patents Pending

Smart Pipe Company, Inc. is a portfolio company of Shell Technology Ventures Fund 1 B.V. (“STV Fund”). STV Fund’s majority investor is Royal Dutch Shell.
